Leontien Zijlaard-van Moorsel winner of Olympic Gold medals

Komend uit een familie van fietsfabrikanten legde Andries Gastra 35 jaar geleden de basis voor het merk Koga-Miyata. De missie van toen staat nog steeds: het ontwikkelen van superieure kwaliteit met een zeer exclusieve uitstraling en fantastisch rijgedrag.

Koga behoort tot de top in high-end fietsmerken met nog steeds een focus op kwaliteit en innovatie. De nieuwe technieken en materialen die o.a. worden toegepast voor de racefietsen van Theo Bos, Marianne Vos en het Skil-Shimano team vindt u deels ook terug in de fietsen van onze collectie.

In deze brochure krijgt u een goed beeld van de klasse die onze fietsen uitstralen en de passie waarmee ze geheel handmatig worden samengesteld. Met een Koga-Miyata bezit u niet alleen een fiets maar tevens een merk met een indrukwekkende uitstraling.

Raised from a family of cycle makers, Andries Gastra laid the foundations of the Koga Miyata brand 35 years ago. Its original mission has remained true to this day: the development of cycles of first class quality, with highly exclusive style and with superb riding qualities.

Koga is among the very top premium cycle brands, always centred around quality and innovation. New technologies and materials, employed on the racing machines of Theo Bos, Marianne Vos and the Skil-Shimano team, among others, are also found in many of the cycles in our range.

This brochure offers just a glimpse at the sheer class which our cycles exude, and of the passion with which each one is assembled by hand. Owning a Koga-Miyata one does not simply possess a bike, but also a brand with impressive appeal.

Aus einer Familie von Fahrradfabrikanten kommend legte Andries Gastra vor 35 Jahren das Fundament für die Marke Koga-Miyata. Die Mission von damals gilt noch heute: das Entwickeln von Fahrrädern in erstklassiger Qualität, mit sehr exklusiver Ausstrahlung und hervorragenden Fahreigenschaften.

Koga gehört zur Spitze der Premium-Fahrradmarken, Qualität und Innovation stehen weiterhin im Mittelpunkt. Die neuen Techniken und Materialien, die unter anderem bei den Rennrädern von Theo Bos, Marianne Vos und dem Skil-Shimano-Team eingesetzt wurden, findet man teilweise in den Fahrrädern unserer Kollektion wieder.

Diese Broschüre vermittelt ein Bild von der Klasse, die unsere Fahrräder ausstrahlen, und von der Leidenschaft, mit der sie alle von Hand montiert werden. Mit einem Koga-Miyata besitzt man nicht nur ein Fahrrad, sondern auch eine Marke mit einer einzigartigen Ausstrahlung.

Originaire d'une famille de fabricants de vélos, Andries Gastra a jeté les bases de la marque Koga-Miyata voici 35 ans. La mission des débuts reste d'actualité : développer des vélos de qualité supérieure avec une aura très exclusive et une conduite absolument fantastique.

Koga fait partie du top niveau des marques « Premium » et la qualité et l'innovation restent au cœur de nos efforts. Les nouveaux techniques et matériaux qui ont été utilisés, entre autres, dans les vélos de compétition de Theo Bos, Marianne Vos et de l'équipe Skil-Shimano se retrouvent dans une partie des vélos de notre collection.

Cette brochure vous donnera une image de la classe qui distingue nos vélos et de la passion avec laquelle ils sont tous montés mains. Avec un Koga-Miyata, vous ne possédez pas seulement un vélo, mais aussi une marque avec un rayonnement inédit.

Dat onze wortels bij de racefiets liggen, is in onze hele racecollectie terug te vinden; (semi-)professionele wedstrijdfietsen en uitstekende modellen voor de toerfietser. Eén ding hebben ze allemaal gemeen: ze profiteren van intensieve 'test drives' door professionals, zoals het Skil-Shimano team en Theo Bos, berijder van een Kimera. De kennis die daarbij wordt verzameld komt natuurlijk onze totale productontwikkeling ten goede. Profiteer ervan mee!

Im Rennrad liegen unsere Wurzeln. Und diese Tatsache zieht sich durch die gesamte Race-Kollektion. Rennmaschinen für den (semi-)professionellen Einsatz und ausgezeichnete Modelle für den Freizeitsport. Eines haben alle gemeinsam: Sie profitieren von den intensiven „Testfahrten“ der Profis, wie dem Team Skil-Shimano und Kimera-Fahrer Theo Bos. Erkenntnisse, die dort gewonnen werden, fließen natürlich in die Entwicklung ein. Profitieren Sie mit!

Our roots are in racing bikes, and this fact is evident throughout our whole Race range, with racing machines for (semi)professional use and superb models for amateur sport. They have one thing in common: they benefit from intensive 'test riding' from the professionals, such as the Skil-Shimano team and Kimera rider Theo Bos. The knowhow which this gives us is naturally fed right back into product development - so you benefit too!

Nos racines se trouvent dans le vélo de course. Cela se fait sentir à travers toute notre collection de vélos de course, qu'ils soient destinés à l'utilisation semi-professionnelle ou au cycliste amateur. Tous partagent la même caractéristique : ils tirent profit des « tests » intensifs par les pros du Team Skil-Shimano et par Theo Bos sur Kimera. Leurs riches expériences en compétition ont été déterminantes pour le développement de cette gamme. Profitez-en !

Reliable aluminium racing bike with carbon fork for a wide range of applications. A classic in the Koga collection.

Robustes Aluminium Rennrad mit Carbongabel für den vielseitigen Einsatz. Ein Klassiker der Koga-Kollektion.

Un vélo de course en aluminium avec une fourche en carbone multi-usage. Un grand classique de la collection Koga.

# Sponsoring Sport

Koga ondersteunt topsporters vanuit een visie: passie voor fietsen. Want dat is het, wat succesvolle sporters kenmerkt: passie, afzien, grensverleggende inzet. Daarbij maakt het niet uit of het om wielrennen, mountainbiken of reizen om de wereld gaat. Iedere rijder is op zoek naar zijn uiterste grenzen. Of dat nu een gouden medaille is of de top van een berg.

Voor Koga betekent sponsoring meer dan alleen demonstratie van technische know-how. We werken nauw samen met onze partners. Zij geven Koga waardevolle suggesties voor verbetering van onze producten. En daar wordt sponsoring interessant voor u. Deze innovaties vindt u in uw eigen Koga terug!

Koga's support for top-level athletes springs from a shared vision: a passion for cycling. Because what makes a successful athlete is passion, dedication, contempt for limits. It doesn't matter whether it's road racing, mountain biking or a world tour: every rider strives to achieve their own personal cycling best, be it a gold medal or scaling a mountain.

And for Koga, sponsorship is more than a demonstration of our technical knowhow: we work closely with our sponsorship partners, and they give us valuable feedback to improve our products. And this makes our sponsorship activities relevant for you, too, because these improvements end up in your very own Koga!

Theo Bos - track cyclist - [www.theobos.com](http://www.theobos.com)

Marianne Vos - allround cyclist - Gold Beijing 2008

# Passion For Cycling

Koga unterstützt Spitzensportler aus einer gemeinsamen Vision heraus: der Leidenschaft für das Fahrradfahren. Denn das ist es, was einen erfolgreichen Sportler ausmacht: Leidenschaft, Einsatz, Grenzen ausloten. Ganz gleich, ob es dabei um Radrennen, Mountainbiken oder um eine Weltreise geht. Jeder strebt seinem eigenen Fahrrad-Höhepunkt entgegen - ob das nun eine Goldmedaille ist oder eine Bergspitze.

Für Koga bedeutet Sponsoring mehr als nur eine Demonstration seines technischen Know-hows. Wir arbeiten eng mit unseren Partnern zusammen. Sie geben Koga wertvolle Hinweise für die Verbesserung unserer Produkte. Und da wird Sponsoring interessant für Sie, denn diese Innovationen finden Sie in Ihrem eigenen Koga wieder!

Koga soutient les sportifs de haut niveau à partir d'une vision commune : la passion du cyclisme. Car c'est ce qui fait d'un athlète un champion : la passion, l'engagement et de repousser les limites. Peu importe qu'il s'agisse de courses de vélo, de VTT ou de faire le tour du monde. Chacun vise à atteindre ses propres objectifs – que ce soit une médaille d'or ou un sommet de montagne.

Pour Koga, le sponsoring signifie bien plus qu'une simple démonstration de notre savoir-faire technique. Nous travaillons en étroite collaboration avec nos partenaires. Ils donnent des indications précieuses à Koga pour améliorer nos produits. A partir de là, le sponsoring devient intéressant pour vous, car ces innovations, vous les retrouvez dans votre propre Koga !

| Weight: ca. 1,4 Kg | Price: € 899,- | ▽ 53 56 59 |

Race

- Lightweight scandium frameset, triple hardened and oval triple butted tubing
- Koga Track carbon/alloy front fork
- Seat tube with special 'aero' shape
- Straight, replaceable rear-ends
- Perfect stiffness for professional, allround track use

Colour: Dutch orange metallic/Pearl white

Scandium frame met rechte patten en voorvork, dat speciaal werd ontwikkeld voor de baan en waarmee al vele professionele successen werden geboekt.

Designed specially for track use, this Scandium frame has straight drop-outs. Multiple wins at professional championships.

Speziell für den Einsatz auf der Bahn konzipierter Scandium-Rahmen mit geraden Ausfallenden. Gut für viele Siege auf professionellen Meisterschaften.

Ce cadre en scandium aux pattes droites a été spécialement conçu pour la piste. Vainqueur multiple aux championnats professionnels.

# Mountainbike

De mountainbike-ervaring van Koga gaat terug tot het begin: Greg Herbold wordt in 1991 wereldkampioen downhill met Koga-Miyata. Sinds 1986 ontwikkelt en bouwt Koga een compact programma mountainbikes met geavanceerde technieken als het XPM-veersysteem en full-carbon als framemateriaal. Getest in de zwaarste wedstrijden door het Nissan Mountainbike Team. Ons doel: mtb's die allereerst moeten overtuigen door verrassende prestaties, dán pas door hun prima looks.

Kogas Erfahrung mit Mountainbikes reicht bis in die Anfänge zurück: Greg Harbold wurde 1991 Downhill-Weltmeister auf einem Koga-Miyata. Seit 1986 entwickelt und baut Koga ein kompaktes Programm an Mountainbikes - mit äußerst fortschrittlichen Techniken wie dem XPM-Federungssystem und Full-Carbon als Rahmenmaterial. In den schwierigsten Wettkämpfen vom Nissan Mountainbike Team getestet. Unser Ziel: MTBs, die vor allem durch überraschende Leistungsstärke überzeugen, und dann noch durch ihr tolles Aussehen.

Koga's experience with mountain bikes goes back to the very beginning: Greg Herbold became Downhill World Champion in 1991 on a Koga-Miyata. Since 1986 Koga has developed and built a compact range of mountain bikes with exceptionally advanced technology such as the XPM suspension system and full carbon frame construction - all tested in the toughest race conditions by the Nissan Mountainbike Team. Our aim: to make MTBs which stand out first and foremost for their exceptional performance, and because they look superb, too.

L'expérience VTT de Koga remonte à nos débuts : Greg Herbold a emporté le titre de champion du monde en descente en 1991 sur Koga-Miyata. Depuis 1986, Koga développe et construit un programme compact de VTT en utilisant des techniques avancées comme le système XPM pour les ressorts et des matériaux de cadre entièrement en carbone. Ils sont testés en conditions de compétition par l'équipe Nissan Mountainbike. Notre objectif : des VTT qui s'imposent d'abord par leur performances surprenantes avant de séduire par leur look d'enfer.

# XT-Carbolite

| Weight: ca. 9,9 Kg | Price: € 2.999,- | ▽ 46 50 53 |

# DeSign your unique Koga

@

[www.koga-signature.com](http://www.koga-signature.com)

## Signature Comfort - Touring

Mijn ideale fiets is een fiets met een lage instap, maar toch sportief met een hoogwaardige versnelling en een sportief stuur, maar wel een lekker zadel. Met Koga Signature kon ik al

mijn wensen realiseren. Mijn fantastische fiets voor elke dag, met mijn naam op het frame.

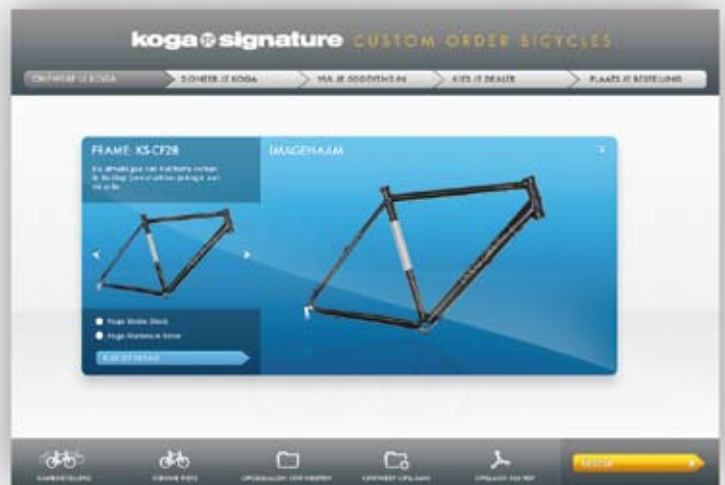

## Signature Trekking Light

Leicht muss es sein, mein Traumrad, aber stabil. Ich will damit auf meinen Reisen ohne Probleme die Berge hoch kommen, aber muss auch meine gesamte Ausrüstung

mitnehmen. Mit Koga Signature habe ich mein leichtes, stabiles Traumrad zusammengestellt. Super! Das kann ich unterschreiben!

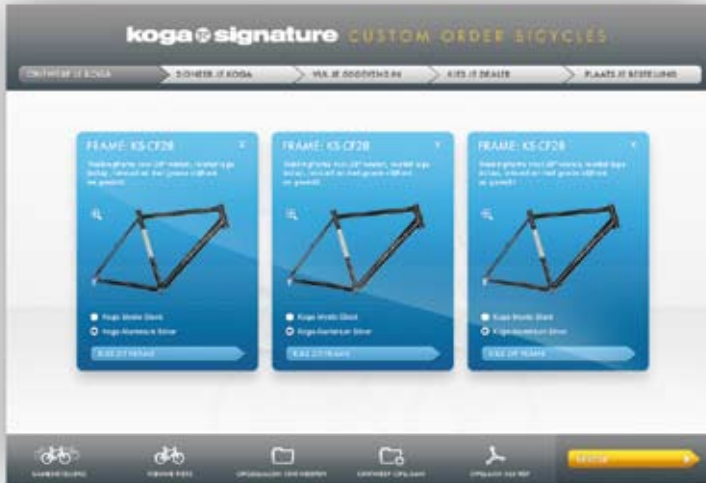

## SIGNATURE.COM

### Signature Fitness

Par le passé, je roulais sur un vélo de course, à l'image des grands du Tour de France, Giro etc. Comme j'ai moins de temps pour rouler actuellement, j'ai voulu me contenter d'un vélo

sportif. Mais rien à faire, on a ses habitudes et ses exigences particulières en tant que gros rouleur. Mon Koga Signature est simple, rien de superflu. Juste tout ce dont j'ai besoin. Mais c'est mon choix personnel, comme on peut le lire sur le cadre.

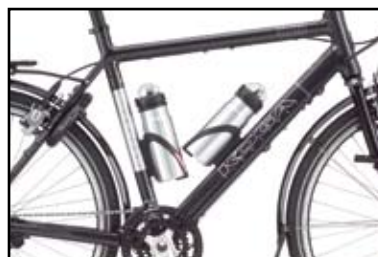

### Signature Trekking Premium

My Koga is my work. My husband and I, we travel through the world to write reports and make pictures. We need a 100% reliable and durable bike. And

we had special wishes. With Koga Signature we designed our best bikes ever, even better than our former bikes – from Koga of course.

# Trekking

Fietsen is een geweldige manier om de wereld te ontdekken, ver of dichtbij. Koga bouwt al ruim drie decennia fietsen die juist daarvoor zijn bestemd: robuust, duurzaam en functioneel compleet. In de nieuwe trekkingcollectie zijn er drie modellen die zich onderweg ruimschoots hebben bewezen, natuurlijk voorzien van de laatste techniek. Zodat uw fietsreis voorop blijft staan.

Fahrrad fahren ist mit die beste Art, die Welt zu entdecken, ob nah oder fern. Koga baut bereits seit mehr als drei Jahrzehnten Fahrräder, die genau dafür bestimmt sind: robust, langlebig und funktional komplett ausgestattet. In der neuen Trekking-Kollektion gibt es drei Modelle, die sich unterwegs schon reichlich bewiesen haben, natürlich nach dem neuesten Stand der Technik ausgestattet. Für eine unbeschwernte Fahrradreise!

Cycling is the best way to see the world, be it nearby or far away. Koga has built bikes for over three decades which are specifically designed for touring: robust, durable and with functional, full equipment. There are three models in the new Trekking range, all of which have already proven themselves handsomely on the road, and naturally all equipped with state of the art components. For a trouble-free cycle tour!

Rouler à vélo est une façon fantastique de découvrir le monde, proche ou lointain. Koga construit depuis presque trois décennies des vélos qui servent précisément à ça : robustes, durables et totalement fonctionnels. La nouvelle collection trekking contient trois modèles qui ont déjà largement fait leurs preuves sur les routes du monde et qui sont aménagés selon les derniers progrès techniques. Pour que seul le voyage reste au cœur de vos préoccupations.

- Tubus rear carrier and lowrider

Colour: Grey metallic

Reisfiets die zijn praktische kwaliteiten net zo goed bewijst tijdens intensief dagelijks gebruik.

A touring bike whose practical qualities shine through just as much through intensive daily use as on tour.

Reisefahrrad, das seine praktischen Qualitäten genauso gut beim intensiven alltäglichen Gebrauch unter Beweis stellt.

Un vélo de voyage dont les qualités pratiques se révèlent aussi dans un usage intensif quotidien.

# Exploring the Planet

Koga is al jaren toonaangevend als het gaat om robuuste, betrouwbare en zeer complete trekking fietsen. Of het nu gaat om de klassieke Randonneur de ongeëvenaarde WorldTraveller of onze nieuwe Signature lijn, fietsreizigers over de hele wereld zijn het over één ding absoluut eens, er gaat niets boven een Koga! Op deze pagina introduceren wij een selectie van 's werelds meest ervaren fietsreizigers en hun Koga's.

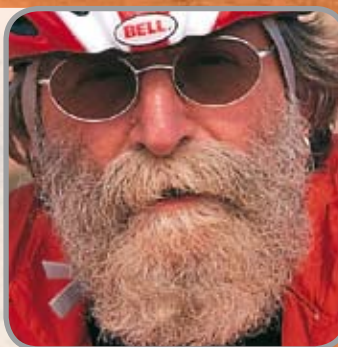

Koga has for many years been leading when it comes to robust, reliable and comprehensively equipped touring bikes. Whether the bike in question is the classic Randonneur, the incomparable World Traveller or our new Signature models, cyclists the world over are united in their verdict: nothing beats a Koga! In these pages we will introduce you to some of the world's most experienced cycle travellers and their Koga bicycles.

Wenn es um robuste, zuverlässige und sehr komplett ausgestattete Reisenräder geht, gibt Koga schon seit Jahren den Ton an. Ob es nun um den klassischen Randonneur, den unübertroffenen World Traveller oder unsere neue Signature-Modelle geht, Fahrradfahrer in der ganzen Welt sind sich in einem Punkt absolut einig: Es geht nichts über ein Koga! Auf dieser Seite stellen wir Ihnen einige der weltweit erfahrensten Fahrradreisenden und ihre Koga-Fahrräder vor.

Depuis de nombreuses années, Koga est le leader incontesté dans le domaine de vélos de trekking robustes, fiables et très complets. Qu'il s'agisse du Randonneur classique, de l'inégalable WorldTraveller ou de notre nouvelle ligne Signature, les voyageurs à vélo du monde entier vous le confirmeront : rien ne dépasse un Koga ! Sur cette page, nous vous présentons quelques globe-trotters cyclistes des plus expérimentés du monde et leur Koga.

Een lichte, maar robuuste toerfiets voor iedereen die met zijn Koga dagelijks sportief op pad wil zijn. Voor woon-werkverkeer, vrije tijd of op vakantie.

A lightweight, robust touring bike for anyone who wants to be out on a sporty ride every day on a Koga - be it to work, for leisure or on holiday

Leichtes, robustes Trekkingrad für alle, die mit ihrem Koga täglich sportlich unterwegs sein wollen. Egal ob zur Arbeit, in der Freizeit oder im Urlaub.

Un vélo de trek léger et robuste pour tous ceux qui veulent rouler à une allure sportive tous les jours, pour se rendre au travail, pour une sortie de loisir ou en vacances.

# Passion For Cycling

TerraLinerCarbolite 2009

# Comfort

Eigenlijk spreekt het individuele design van de Comfortklasse voor zichzelf. Maar de ware kwaliteit ervaart u onderweg: aan de lichte rijeigenschappen, de ontspannen zitpositie en het grote, functionele comfort. Koga ontwikkelde daarvoor innovatieve technieken zoals bijvoorbeeld geïntegreerde, lichtgewicht voorvering die polsen en schouders ontziet of de verrassend krachtige Rayo koplamp met lichtsensior. Aangenaam!

Eigentlich spricht das individuelle Design der Komfort-Klasse für sich. Aber die eigentlichen Qualitäten spürt man unterwegs: an den leichtgängigen Fahreigenschaften, der entspannten Sitzposition und dem hohen, funktionalen Komfort. Koga entwickelte dazu innovative Techniken wie eine innen eingebaute, leichte Vorderradfederung, die die Handgelenke und Schultern schont, oder der überraschend leistungsstarke Rayo-Scheinwerfer mit Lichtsensor. Angenehm!

The individuality of the Comfort Class really speaks for itself. But you'll appreciate its intrinsic quality on the road, too: the smooth-running ride, the relaxed riding position and the great functional comfort. To achieve this Koga developed innovative technologies such as the internally concealed, responsive front suspension system to cushion wrist and shoulder joints, and the amazingly powerful Rayo front light with darkness sensor. Delightful!

Le design individuel de la classe Comfort parle pour lui-même. Mais ses vraies qualités se révèlent en route : l'aisance au pédalage, une position détendue et un grand confort fonctionnel. Koga a développé des techniques innovantes comme la suspension avant intégrée très légère qui ménage les épaules et les poignets ou l'éclairage avant Rayo étonnement puissant grâce aux récepteurs lumineux. Agréable !

# Prominence

| Weight: ca. 16,4 Kg | Price: € 1.699,- | ▽ 50 54 57 60 63 66 | ▽ 47 50 53 56 59 |

The ultimate touring bike model, generously equipped, with a characterful design. The Prominence offers allround comfort, with a hint of sporting style.

Ultimates Tourenrad-Modell, reich ausgestattet, mit charakteristischem Design. Das Prominence ist rundum komfortabel, mit einem leicht sportlichen Einschlag.

Le modèle ultime d'un vélo de randonnée super équipé au design particulier. Le Prominence est de tout confort et apporte une petite note sportive.

# Alliance NewComfort

| Weight: ca. 17,5 Kg | Price: € 1.699,- |  47 50 53 56 |

Comfort

- Multi-adjustable riding position
- Lightweight alloy 7005 frame with integrated Koga Feather front suspension and seat suspension
- One hand adjustable 27 speed (SRAM Dual Drive)
- Accurate and powerful hydraulic Magura rim brakes
- New powerful Koga Rayo Senso+ IQ-LED front light (32 Lux)
- Optional low entry frame

Colour: Warm light grey/Pearl midnight blue

De naam zegt het: New Comfort verlegt de grens in comfortabel toerfietsen. Dankzij bijzondere details is elk model uitgebreid instelbaar, voor een optimale zitpositie.

Ingebouwde vering en een nieuw ontwikkelde zithouding ontzien rug, schouders en polsen, met behoud van dat geweldige fietsgevoel. Kortom: onze business class.

The name says it all: New Comfort sets a new benchmark for comfortable touring bikes. Thanks to careful detail design, each model is multi-adjustable to achieve a perfect riding position. Integrated suspension and a newly-developed riding posture de-stress the back, shoulders and wrists: the pleasure of riding remains undiminished. In short, it's our business class.

Der Name sagt alles: New Comfort verschiebt die Grenze bei den komfortablen Tourenrädern. Dank besonderer Details ist jedes Modell in mehrerer Hinsicht verstellbar, für eine optimale Sitzposition.

Eingebaute Federung und eine neu entwickelte Sitzposition entlasten den Rücken, die Schultern und Handgelenke - das tolle Fahrgefühl bleibt erhalten. Kurzum: unsere Business-Klasse.

Le nom l'indique déjà : New Comfort déplace les limites du confort en randonnée cycliste. Grâce à des détails particuliers, chaque modèle offre un vaste choix de réglages pour une position assise optimale. Une suspension intégrée et une position assise spécialement étudiée se traduisent par un confort inégalable au niveau du dos, des épaules et pour les poignets, tout en gardant des bonnes sensations cyclistes. Bref : notre business class.

Colour: Sapphire blue metallic/High polish

Een verbazend lichte citybike met sportief-trendy look en feel. Dagelijks praktisch inzetbaar maar evengoed klaar voor een snelle rit.

A surprisingly light city bike with a sporty, trendy look and feel. For fast daily transport.

Ein überraschend leichtes Citybike mit einem sportlich-trendigen Look & Feel. Praktisch für alle Alltagsfahrten, aber auch eine schnelle Tour.

Un vélo de ville étonnamment léger avec un look et un comportement sportif branché. Pratique pour une utilisation quotidienne, mais toujours prêt pour une sortie rapide.

# E-Bikes

Steeds meer fietsers ontdekken de voordelen van de E-Bike. Want daarmee fietst u lichter, sneller en misschien zelfs vaker dan met een 'gewone' toerfiets. De hoogwaardige Tesla-serie laat u ruime keus: wilt u een onopvallend ingebouwde accu, een afneembare batterij, of allebei? De vrijwel onzichtbare aandrijving, de nieuwe ION-motoren en een grote actieradius maken de Tesla-modellen tot een gezond en aangenaam fietsalternatief. En met de optionele Xtra Garantie is ook het onderhoud zorgenvrij geregeld (alleen voor de Benelux).

Immer mehr Radler entdecken die Vorteile des E-Bikes. Denn damit fährt man leichter, schneller und vielleicht wahrscheinlich öfter als mit einem 'normalen' Tourenrad. Die hochwertige Tesla-Serie bietet eine breite Auswahl: möchten Sie einen unauffällig eingebauten Akku, einen abnehmbaren Akku mit Tasche oder beides? Der fast unsichtbar eingebaute Antrieb, die neuen ION-Motoren und der große Aktionsradius machen die Tesla-Modelle zu einer gesunden und angenehmen Alternative.

Ever more cyclists are discovering the advantages of E-Bikes. With them, you can ride easier, faster and perhaps even more often than on a 'normal' touring bike. The high quality Tesla range offers you a free choice: would you prefer a discreetly concealed battery, a removable battery pack, or both? The almost invisible, built-in drive system, the new ION motor and the extended range make the Tesla models a healthy, attractive alternative.

De plus en plus de cyclistes découvrent les avantages du E-Bike. Car avec un E-Bike vous ne roulez pas seulement plus facilement et plus vite, mais probablement aussi plus souvent qu'avec un vélo « classique ». La série Tesla haut de gamme vous offre un vaste choix : vous voulez une batterie discrète et intégrée, une batterie échangeable ou les deux ? La propulsion par le quasi invisible moteur ION et un grand rayon d'action font des modèles Tesla une alternative saine et agréable au vélo traditionnel.

- Lightweight aluminium 7005 frame
- Adjustable front suspension with lightweight front fork
- New ION motor for excellent performance, super silent
- 3 support levels, riding characteristics personally adjustable in software
- Multigrip handlebar with leather grips
- Accurate and powerful hydraulic Magura rim brakes
- Shimano 21 speed with LX rear derailleur

Colour: Bordeaux red/Winning silver

De overtreffende trap in fietsen met trapondersteuning. Behalve de stille en krachtige aandrijving geniet u van de zeer luxe uitrusting.

The superlative electric-assisted cycle. You will savour the ease of a quiet and powerful drive and luxurious specification.

Der Superlativ der Fahrräder mit Trittonterstützung. Man kommt in den Genuss eines leisen und kräftigen Antriebs sowie einer sehr luxuriösen Ausstattung.

Il offre un coup de pédale inégalable grâce à l'assistance au pédalage. En dehors de la propulsion silencieuse et puissante vous apprécierez l'équipement de grand luxe.

# E-Bikes

## 'DE BESTE E- BIKE?'

Sinds de introductie in 2006 is de Tesla-serie als toonaangevend ontwerp onderscheiden met (internationale) awards en vakprijzen.

Dat is niet zonder reden!

Een Tesla is herkenbaar aan het slanke design met onopvallende aandrijving. De prachtige details ademen kwaliteit.

Niet verbazingwekkend ook, dat de stille en krachtige ION-aandrijving juist in de Tesla optimaal tot zijn recht komt. Want met óf zonder trapondersteuning rijdt iedere Tesla opvallend licht, stil en soepel. Die superieure klasse ervaart u natuurlijk het beste zélf ... onderweg!

## 'THE BEST E-BIKE?'

Since its launch in 2006, the Tesla range's groundbreaking design has been honoured with numerous (international) design awards and prizes.

And not without good reason!

You will appreciate the Tesla's sleek design and unobtrusive drive system, and the quality is evident in the finest details. So it's not surprising that the quiet but powerful ION drive is employed to its very best effect in the Tesla. With or without pedal assist, the Tesla rides remarkably easily, quietly and smoothly. The best way to convince yourself of its premium-class quality is of course to ride it for yourself!

## 'DAS BESTE E-BIKE?'

Seit seiner Einführung 2006 wurde die Tesla-Serie aufgrund ihres wegweisenden Designs mit (internationalen) Awards und Fachpreisen ausgezeichnet.

Nicht ohne Grund!

Ein Tesla erkennt man am schlanken Design mit dem unauffälligen Antrieb. Den tollen Details sieht man die Qualität an. Nicht überraschend daher, dass der leise und leistungsstarke ION-Antrieb beim Tesla optimal eingesetzt werden kann. Denn mit oder ohne Trittonterstützung fährt jedes Tesla auffallend leicht, leise und sanft. Von dieser Extraklasse überzeugt man sich natürlich am besten selbst ... unterwegs!

## 'LE MEILLEUR E-BIKE?'

Depuis son introduction en 2006, la série Tesla a collectionné des prix et Awards professionnels internationaux en tant que concept révolutionnaire.

A raison !

On reconnaît un Tesla à ses lignes élégantes et une propulsion discrète. Des détails fabuleux respire la qualité. On ne s'étonnera guère que la propulsion puissante et silencieuse ION s'exprime de manière optimale sur le Tesla. Que l'on roule avec ou sans assistance au pédalage, le Tesla s'avère léger, silencieux et souple. Pour se convaincre de sa classe supérieure... enfourchez-le !

Slank ontwerp met vrijwel onzichtbaar ingebouwde aandrijving en geweldige fiets eigenschappen, ook zonder ondersteuning. Winnaar van internationale vakprijzen.

Eenvoudige bediening via één afneembaar display op het stuur, tevens elektronisch slot. Ook afleesbaar: snelheid, dagteller, vulling van de batterij en service-informatie.

Drie keuzestanden voor trapondersteuning: Eco, Normal en Power. Uniek: speciale rijprogramma's installeerbaar voor heuvelgebied, toertochten enz.

De bekende ION-aandrijving werkt stil, krachtig, is duurzaam en reageert aangenaam soepel. De ondersteuning werkt alleen indien u trapt.

Betrouwbaar en veilig: de ION-motor voldoet als één van de weinige aan de EMC-norm, verplicht voor de Europese CE-keur

Krachtige accu's van het NiMH-type; momenteel veiliger én krachtiger dan Li-ion batterijen. Snel oplaadbaar na elke rit, eenvoudig via het stopcontact.

Sleek design with almost invisible integrated drive system, and excellent handling, even without pedal assist. International award winner.

Easy to use removable handlebar display, with electronic locking function. Also displayed are: speed, trip distance, battery charge level and service information.

Three levels of pedal assist: Eco, Normal and Power. Unique capacity to install special ride programs for hilly terrain, touring etc.

The well-known ION drive works quietly, powerfully, is long-lasting and applies the power smoothly. Pedal assist engages only while you pedal.

Reliable and safe: the ION motor is one of the few models to conform to EMC standards, compulsory for the European CE mark.

Powerful NiMH batteries; currently safer and higher-performance than Li-ion rechargeables. Quick recharge after every ride, simple plug-in mains charger.

Schlankes Design mit fast unsichtbar eingebautem Antrieb und tollen Fahreigenschaften, auch ohne Trittonterstützung. Gewinner internationaler Fachpreise.

Einfache Bedienung über ein abnehmbares Display am Lenker, zugleich elektronisches Schloss. Auch ablesbar: Geschwindigkeit, Tageszähler, Ladezustand der Batterie und Service-Information.

Drei Stufen der Trittonterstützung: Eco, Normal und Power. Einzigartig: spezielle Fahrprogramme für hügeliges Gelände, Touren etc. installierbar.

Der bekannte ION-Antrieb arbeitet leise, leistungsstark, ist langlebig und reagiert angenehm sanft. Die Trittonterstützung arbeitet nur, wenn man tritt.

Zuverlässig und sicher: der ION-Motor erfüllt als einer der wenigen die EMC-Norm, Pflicht für das europäische CE-Zeichen.

Leistungsstarke Akkus der Type NiMH; momentan sicherer und leistungsstärker als Li-ion-Batterien. Schnell aufladbar nach jeder Fahrt, einfach an der Steckdose.

Design élégant avec propulsion intégrée quasi invisible et aux qualités de conduite inédites, même sans assistance. Il a remporté des concours professionnels internationaux.

Utilisation facile grâce au display amovible sur le guidon qui sert également de cadenas électronique. Indications de vitesse, kilométrage journalier, état de charge de la batterie, informations de service.

Trois réglage de l'assistance au pédalage : Eco, Normal et Power. Unique : des programmes spécifiques pour terrain vallonné, randonnées à télécharger.

La propulsion ION bien connue est silencieuse, puissante et endurante et s'enclenche avec souplesse. L'assistance ne fonctionne qu'en pédalant.

Fiable et sûr : le moteur ION est un des rares à répondre aux normes EMC, obligatoire pour obtenir le sigle CE européen.

Batteries puissantes du type NiMH ; plus sûres et plus puissantes pour que les actuelles batteries Li-ion. Se recharge rapidement à n'importe quelle prise électrique.

## Xtra Garantie \*

5 jaar lang geen onverwachte reparatiekosten aan uw E-bike? Dat kan met de Xtra Garantie! Regelmatig onderhoud geeft extra

zekerheid en voorkomt verrassingen. Juist bij een fiets met elektronische trapondersteuning is dat wel zo prettig én gemakkelijk! Met de 'Xtra Garantie' verlengt u de standaard garantie op alle Tesla-modellen van 2 naar 5 jaar, en dat voor het eenmalige vaste bedrag van € 169,-. Daarmee zijn alle reparaties kosteloos (slijtagedelen uitgezonderd).

De Xtra Garantie kan ook ná aanschaf van een Koga-Miyata Tesla worden afgesloten. Vraag uw Koga-Miyata dealer naar de exacte mogelijkheden en voorwaarden van deze service.

\* Only for the Benelux/Nur für Benelux/Seulement pour le Benelux.

## Electrisch fietsen is een verrassend alternatief

Fietsen met elektrische trapondersteuning heeft verrassende voordelen.

Want dankzij de inschakelbare ondersteuning gaat fietsen met tegenwind of heuvelop voortaan vederlicht. Een prima reden om eerder, vaker en langer de fiets te pakken. Voor werk, ontspanning, uw conditie of een snelle boodschap... of alles tegelijk! In iedere Koga-Miyata Tesla zit de superieure ION-aandrijving vrijwel onzichtbaar ingebouwd in het modern ontwerp. De eenknopsbediening is eenvoudig en alleen een stopcontact is nodig. De E-bike is de nieuwste definitie van fietsplezier!

## Fahrradfahren mit elektrischer Unterstützung - eine überraschende Alternative

Fahrradfahren mit elektrischer Trittunterstützung hat überraschende Vorteile: Denn dank der einschaltbaren Unterstützung geht das Fahrradfahren auch bei Gegenwind oder bergauf spielend leicht. Gute Gründe, um früher, öfter und länger Fahrrad zu fahren. Für den Weg zur Arbeit, zur Entspannung, für eine gute Kondition oder einen schnellen Einkauf - oder auch alles zugleich. In jedem Koga-Miyata Tesla sitzt der erstklassige ION-Antrieb, fast unsichtbar eingebaut im modernen Design. Die Bedienung mit einem Knopf ist simpel, nur eine Steckdose ist nötig. Das E-Bike ist die neueste Definition von Fahrradvergnügen!

## Cycling with electric assist – an amazing alternative!

Cycling with electric pedal assist offers amazing advantages. With the switchable electric assist you can ride into headwinds or uphill effortlessly: a good reason to ride earlier, more frequently and further. To work, for relaxation, for fitness or just to get about quickly... or all of these together! Inside every Koga-Miyata Tesla is installed the first-class ION motor, almost invisibly integrated within a modern bike design. It's easy to use with a single button, and plugs in to the mains to charge. E-bikes simply redefine the pleasure of cycling!

## Le vélo électrique, une alternative surprenante

Rouler sur un vélo avec assistance électrique au pédalage a des avantages étonnants. Car grâce à l'assistance facile à enclencher, on pédale sans peine même face au vent ou en pente. Autant de raisons pour prendre le vélo plus vite, plus souvent et pour des trajets plus longs. Pour se rendre au travail, se détendre, améliorer sa condition physique ou faire une course rapide...ou tout au même temps ! Chaque Koga-Miyata Tesla est équipé de la propulsion ION de qualité supérieure, quasi invisible grâce à son intégration dans un design moderne. Un coup de pouce suffit pour l'enclencher et il se recharge via une prise électrique. Le E-Bike est une nouvelle définition du plaisir de rouler !

| Maximum Distance * | Eco (km) | Normal (km) | Power (km) |
|--------------------|----------|-------------|------------|
|                    | 55-90    | 40-55       | 30-40      |
|                    | 45-60    | 30-45       | 20-30      |
|                    | 35-50    | 25-35       | 15-25      |

\* The maximum distance is affected by a variety of factors such as: wind, terrain, body weight and packaging, tire pressure and temperature.

- Lightweight aluminium 7005 frame
- Integrated Koga Feather front suspension and seat suspension
- 3 support levels, riding characteristics personally adjustable in software
- External battery (11Ah) easily removable for charging
- Shimano 21 speed
- Sportive design with vivid riding characteristics

Colour: Nano black

Electric hybride

Licht sportief fietsen en tóch een steun in de rug, dat is de Tesla RE. Wendbaar en comfortabel rijdend. De accu is eenvoudig afneembaar van de drager.

A fast, sporty ride, but with a helping hand at your back: that's the Tesla RE. Nippy and comfortable to ride. Battery can easily be detached from the rack.

Leicht sportlich Fahrrad fahren und doch eine Unterstützung im Rücken: das ist das Tesla RE. Wendig, Komfort beim Fahren. Der Akku kann einfach vom Träger abgenommen werden.

Faire du vélo de façon sportive mais pouvoir quand même compter sur un coup de pouce, c'est ça le Tesla RE, agile et confortable. La batterie se retire facilement de son support.

# Specials

Bijzondere vormen van mobiliteit verdienen binnen de Koga-collectie hun eigen segment. Op de navolgende bladzijden vindt u speciale compacte fietsen, de prijswinnende stadfiets Vector en de compact bike Adaptor.

Mobility options unique to the Koga range deserve a category of their own. Over the following pages you will discover exceptional folding and compact bikes, the prize-winning Vector city bike and the compact bike Adaptor.

Einer Mobilität, die in der Koga-Kollektion einzigartig ist, gebührt auch eine eigene Rubrik. Auf den nächsten Seiten finden Sie spezielle Falt und Kompakträder, das preisgekrönte Cityrad Vector und das Kompaktbike Adaptor.

La mobilité qui caractérise singulièrement toute la collection Koga mérite aussi une catégorie à part. Sur les pages suivantes vous découvrez des vélos particulièrement compacts ou pliables, le vélo urbain Vector et le vélo compacté Adaptor.

- Full suspension aluminium 7005 foldable frame
- SRAM X.9 components
- Accurate and powerful hydraulic Magura HS-33 rim brakes
- Additional rear disc brake for long descents
- SON hub dynamo
- Continental Travel Contact tires
- Folding size: 113x45x131 cm, length: 250cm

**Colour:** Aluminium paint/Grey polish

Koga's unieke full suspension vouwtandem heeft zich met zijn bijzondere kwaliteiten al in ruime mate in de praktijk bewezen. Fietsplezier voor twee!

Koga's unique full-suspension folding tandem has long since proven its quality. Twice the riding fun!

Koga's einzigartiges vollgefedertes Falttandem hat seine Qualität bereits vielfach unter Beweis gestellt. Fahrspaß für zwei!

L'unique tandem pliable et suspendu de Koga a déjà prouvé ses qualités à des multiples reprises. Le plaisir de rouler à deux !

# Adaptor

| Weight: ca. 13,4 Kg | Price: € 1.499,- | Frame sizes: S/M M/L |

Specials

- Lightweight aluminium 7005 Compact Bike, 20" wheel size
- Low maintenance carbon belt drive with Shimano 8 speed hub gear
- Vredestein Moiree shock reducing balloon tires
- Super adjustable - telescopic seat post and stem, folding pedals
- Folding sizes: S/M: 150 X 87 X 72cm  
M/L: 157 X 93 X 79cm
- Very comfortable riding performance

**Colour:** Nano black/Chrome red/High polish

De Adaptor is een volwaardige toerfiets, die in de auto, caravan, camper of op de boot kan worden meegenomen, zodat men nergens van fietsplezier verstoken hoeft te blijven.

De Adaptor is simpel, compact en schoon. Stuurstang en zadel worden simpelweg ingeschoven, terwijl pedalen en stuur worden ingeklapt. Daarna is de Adaptor compact genoeg om te transporteren.

The Adaptor is a full-performance touring bike which you can take with you in a car boot, mobile home, boat or caravan, without missing out on ride quality.

The Adaptor is simple, compact and clean. Stem and seatpost can simply be pushed in, pedals and handlebars be folded up. This makes the Adaptor compact enough for transport.

Der Adaptor ist ein vollwertiges Trekkingrad, das im Auto, Wohnwagen, Boot oder Wohnmobil mitgenommen werden kann, ohne auf Fahrradvergnügen zu verzichten.

Der Adaptor ist einfach, kompakt und sauber. Lenkerstütze und Sattel werden einfach eingeschoben und Pedalen und Lenker werden eingeklapt. Dadurch ist der Adaptor kompakt genug, um ihn zu transportieren.

L'Adaptor est un vélo de trek complet qui s'empporte facilement en voiture, en caravane ou en bateau pour ne pas devoir renoncer aux plaisirs sur deux roues.

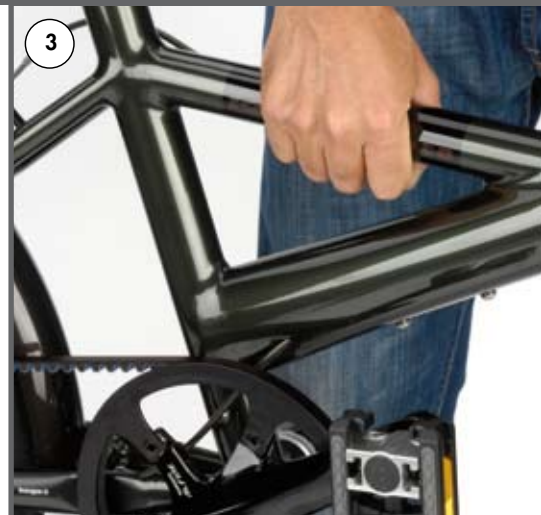

L'Adaptor est simple, compact et propre. Les tiges de selle et de cintre s'enfoncent facilement et les pédales et le guidon peuvent être rabattus. Ainsi compacté, l'Adaptor prend un minimum de place lors du transport.

EXPECTED  
2009

- 1 Carbon riemaandrijving: lichtlopend, onderhoudsarm (rekvrij) en schoon. Ontziet kleding en interieur.
- 2 In een handomdraai verandert de Adaptor in een laag en smal pakketje.
- 3 Makkelijk op te tillen; u zet de Adaptor zo in of op auto, auto of caravan
- 4 Lichtgewicht vering en stabiele wegligging, dankzij het ronde en brede profiel van de lichtlopende Vredestein Moiree Ballonbanden.
- 5 Soepel rijden, gemakkelijk schakelen en weinig onderhoud met de Shimano Nexus Premium 8-versnellingsnaaf.
- 6 2 sizes fit all. Met 2 framematen en een slim stelsysteem is de Adaptor flexibel in te stellen op de juiste fietshouding.

- 1 Quiet, grease-free and low-wear: not a chain but a belt drive. Good for your clothing and furniture.
- 2 With just a few easy hand actions the Adaptor converts into a narrow package.
- 3 Easy to carry, fits in a car, on a boat or with you in your mobile home
- 4 A suspension effect and solid roadholding comes from the wide, round profile of the easy-rolling Vredestein Moiree balloon tyres
- 5 Rides fast, shifts smoothly, and has low maintenance with its Shimano Nexus 8 Premium hub gear.
- 6 2 sizes fit all. With two frame sizes and a clever adjustment system, the riding position on the Adaptor is just as comfortable as on a normal touring bike.

- 1 Still, fettfrei und wenig Verschleiß: keine Kette sondern ein Riemenantrieb. Schont Kleidung und Einrichtung
- 2 Im Handumdrehen verändert der Adaptor in ein schmales Paket.
- 3 Einfach zu tragen, passt ins Auto, aufs Boot oder mit in den Wohnwagen
- 4 Federung und stabile Straßenlage durch das runde und breite Profil der leichtlaufenden Vredestein Moiree Ballonreifen.
- 5 Schnell fahren, flüssig schalten und wenig Wartung mit der Shimano Nexus 8 Premium Nabenschaltung.
- 6 2 sizes fit all. Mit zwei Rahmenmaßen und einem intelligenten Einstellsystem ist die Sitzposition auf dem Adaptor genauso komfortabel, wie auf einem normalen Trekkingrad.

- 1 Silencieuse, sans graisse et résistante à l'usure : la courroie à la place d'une chaîne. Vos vêtements et votre intérieur restent propres.
- 2 En un coup de main, l'Adaptor se transforme en paquet facile à ranger.
- 3 Simple à porter, il se range dans la voiture, sur le bateau ou dans la caravane.
- 4 Un amorti supérieur, une meilleure stabilité et une faible résistance sur la route grâce au profil rond et extra large des pneus Vredestein Moiree.
- 5 Rouler vite, changer de vitesse facilement et ne pas se soucier de l'entretien grâce au changement de vitesses en moyeu Shimano Nexus 8 Premium.
- 6 2 tailles pour tous. Deux tailles de cadres et un système de réglage intelligent rendent la position assise sur l'Adaptor aussi confortable que sur un vélo de trekking normal

# Vector

| Weight: ca. 15,9 Kg | Price: € 1.499,- |  50 54 57 60 |

Specials

- Lightweight 26" aluminium 7005 frame, stable and directframe geometry
- Accurate and powerful hydraulic Magura HS-11 brakes
- Low maintenance: Shimano Nexus 8-speed Premium hub gear with chainglider
- Schwalbe Big Apple 50mm shock reducing tires
- Automatic LED lighting

Colour: Starry Night

De ideale fiets voor het verkeer in de (grote) stad. Wendbaar en veilig, comfortabel en desondanks zeer sportief. Als fiets voor dagelijks gebruik valt hij nauwelijks te overtreffen.

The ideal bike for mixing with (big) city traffic. Nippy and safe, comfortable but nonetheless super-sporty. Its everyday capability is hard to beat.

Das ideale Rad für den (Groß-)stadtverkehr. Wendig und sicher, komfortabel und trotzdem super sportlich. Seine Alltagstauglichkeit ist schwer zu übertreffen

Le vélo idéal pour la circulation urbaine. Souple et sûr, confortable et quand même super sportif. Sa multifonctionnalité au quotidien est inégalable.

# Founder-S

| Weight: ca. 14,3 Kg | Price: € 1.499,- | Frame sizes (cm) Unisize |

Specials

- Koga design full suspension aluminium 7005 frame
- Shimano Capreo 9-speed
- Telescopic seatpost and stem
- Schwalbe Marathon plus tires
- Folding size: 83x43x93cm (HxBxL)
- Very comfortable riding performance

Colour: NanoBlack/Chrome Red/High Polish

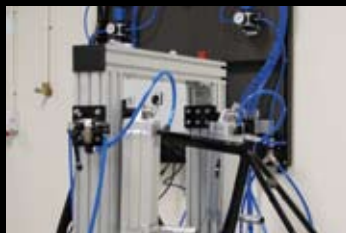

De Founder-S kan als de fiets onder de vouwfietsen worden beschouwd. Hij is vrijwel als normale toerfiets te berijden, maar is klein en compact in het transport.

The Founder-S puts the bike back into folding bike. It rides almost like a normal touring bike, but can be stashed away small.

Das Founder-S ist das Fahrrad unter den Falträdern. Es fährt sich nahezu wie ein normales Tourenrad, lässt sich allerdings klein verstauen.

Le Founder-S est un vrai vélo parmi les vélos pliables. Il se comporte sur la route presque comme un vélo de randonnée classique, mais se range dans un minium d'espace.

# Quality/Lifetime Warranty

**LIFETIME**  
koga@miyata warranty  
THE QUALITY PEOPLE IN CYCLING

**English**

From 2007 onwards all models, all Koga-Miyata frames and unsuspended front forks (aluminum, scandium, and chromoly) for non-professional use have a lifetime warranty on the occurrence of design or manufacturing faults (excludes paint damage).

See [www.koga.com](http://www.koga.com) for more details

**Deutsch**

Alle Kogamodelle ab 2007, alle Koga-Miyata Rahmen und ungefederten Vorderradgabeln (Aluminium, Scandium und Chrom-Molybdän) für den nicht-professionellen Einsatz haben eine lebenslange Garantie beim Auftreten von Konstruktions- und Produktionsfehlern (Lackschäden ausgeschlossen)

Weitere Informationen unter [www.koga.com](http://www.koga.com)

**LIFETIME**  
koga@miyata warranty  
THE QUALITY PEOPLE IN CYCLING

**Nederlands**

Vanaf de collectie 2007 is op alle Koga-Miyata frames en ongeveerde voorvorken voor niet professioneel gebruik (aluminium, scandium of chromomolybdeen) een levenslange garantie van toepassing bij het optreden van ontwerp- of productiefouten (lakschade uitgesloten).

Kijk op [www.koga.com](http://www.koga.com) voor meer informatie

**Le Français**

Tous les modèles actuels, tous les cadres Koga-Miyata et fourches non-suspendues de la roue avant (aluminium, scandium et chrome-molybdène) pour usage non-professionnel sont couverts par une garantie à vie contre les vices de construction et de production (dommages du vernis exclus).

Plus d'information sur [www.koga.com](http://www.koga.com)

**Chromomolybdeen:** een klassieker onder de frame-materialen. Een superieure staalvariant. Ideaal voor frames waarbij een optimum moet worden gezocht tussen duurzaamheid, comfort, stijfheid en gewicht.

**Chromium Molybdenum:** a classic frame material. A superior option to steel, it is ideal for frames requiring optimum balance between durability, comfort, stiffness and weight.

**Chrom-Molybdän:** Ein klassisches Rahmen material.

Dieses Material ist Stahl überlegen und optimal für Rahmen geeignet, die ein ideales Gleichgewicht zwischen Dauerhaltbarkeit, Komfort, Steifigkeit und Gewicht erfordern.

**Chrome molybdène:** communément appelé « chromoly », l'acier au chrome molybdène est une matière de cadre classique. Supérieur à l'acier ordinaire, il permet de concilier de manière optimale les impératifs de résistance, de confort, de rigidité et de légèreté.

**Carbon:** voor wie het uiterste uit zijn fiets wil halen. Carbon biedt de mogelijkheid om optimaal te construeren ten aanzien van stijfheid en gewicht.

**Carbon:** for anyone who wants to get the ultimate out of their bike. In terms carbon is the optimal construction material.

**Carbon:** Für jene, die alles aus ihrem Rad heraus-holen wollen. Was Steifigkeit und Gewicht angeht, ist Carbon das optimale Baumaterial.

Das Endergebnis sind superleichte Rahmen und perfekte Steifigkeit.

**Carbone :** la matière idéale en termes de rigidité et de légèreté. Les cadres en fibres de carbone sont ultra-légers et parfaitement rigides. Pour tous ceux qui exigent de leur vélo les plus hautes performances.

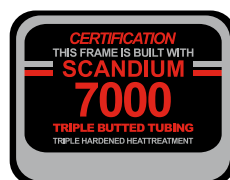

**Aluminium 7005:** Één van de meest hoogwaardige aluminium legeringen op de markt. De unieke samenstelling van deze legering maakt het mogelijk om zeer stijve en tegelijkertijd lichte frames te bouwen. De drie dubbele warmte behandeling maakt het frame daarnaast nog extra sterk.

**Aluminium 7005:** An exceptionally high quality aluminium alloy. Its unique composition of alloys makes it possible to create very lightweight and stiff frames. The triple hardening heat treatment makes it strong construction

**Aluminium 7005:** Eine der hochwertigsten Aluminiumlegierungen, die es gibt. Die einzigartige Zusammenstellung der Legierung ermöglicht die Konstruktion von sehr steifen, aber gleichzeitig leichten Rahmen. Die dreifache Wärmebehandlung verleiht dem Rahmen extra Stabilität.

**Aluminium 7005 :** Un des meilleurs alliages d'aluminium de haute qualité qui existent. La composition unique de cet alliage permet une construction très rigide tout en permettant de faire un cadre très léger. Le traitement thermique lui assure une stabilité extraordinaire.

**Scandium:** zeer exclusief materiaal afkomstig uit de ruimtevaart industrie. Scandium combineert de duurzaamheid van aluminium met de stijfheid en het gewicht van carbon.

**Scandium:** a unique material, originally used in the space industry. Scandium combines the durability of aluminium with the stiffness and weight advantage of carbon.

**Scandium:** Ein ursprünglich in der Weltraumtechnik eingesetztes Spezialmaterial. Scandium vereint die Dauerhaltbarkeit von Aluminium mit der Steifigkeit und dem Gewichtsvorteil von Carbon.

**Scandium :** une matière très légère aux propriétés uniques, utilisée dans l'industrie aéronautique. Cet ingrédient d'alliage permet de concilier la résistance de l'aluminium à la rigidité et la légèreté d'un carbone.

## PAS OP MET INTERNET VERKOOP

Het kan voorkomen, dat u nieuwe Koga-Miyata fietsen kunt aanschaffen via het internet, afkomstig van aanbieders die niet staan geregistreerd als officieel merkdealer van Koga-Miyata (dus geen 'Selected Koga Dealer' of 'Koga Full Range Dealer').

Vaak worden deze fietsen aangeboden met extra korting. Indien u na aankoop via deze weg aanspraak wenst te maken op service en garantie blijkt het echter vaak erg lastig om uw fiets terug te sturen naar de firma die uw Koga-Miyata heeft geleverd.

Kiest u daarentegen voor aanschaf bij uw plaatselijke Selected Koga Dealer of Full Range Dealer, dan is dit traject echter wél goed geregeld. Wij raden u dan ook aan, altijd uw Koga-Miyata aan te schaffen bij de officiële Koga Selected en/of Full Range Dealer. Snelle en vakkundige service en onderhoud zijn dan gegarandeerd.

## VORSICHT MIT INTERNET-VERKÄUFEN

Manchmal werden neue Koga-Miyata-Räder über das Internet angeboten, allerdings von Händlern, die nicht als offizielle Händler der Marke Koga-Miyata registriert sind (und sich demnach nicht 'Selected Koga Dealer' oder 'Koga Full Range Dealer' nennen dürfen).

Diese Händler locken mit besonders günstigen Preisen. Die Rechnung kommt oft nach dem Kauf über diesen Vertriebsweg, nämlich wenn Sie Service oder Garantie einfordern möchten: dann wird es sehr kompliziert, Ihr Rad an die betreffende Lieferfirma zu diesen Zwecken zurückzusenden.

Entscheiden Sie sich hingegen für die Anschaffung über einen Selected Koga Dealer oder Full Range Dealer in Ihrer Nähe, sind derartige Leistungen sehr gut geregelt. Daher raten wir Ihnen, Ihr Koga-Miyata stets über einen offiziellen Koga Selected und/oder Full Range Dealer anzuschaffen: nur dann sind schneller und fachkundiger Service sowie optimale Wartung garantiert.

## BE CAREFUL WITH INTERNET SALES

Sometimes new Koga-Miyata bikes are offered via the Internet but from dealers who are not registered as official dealers for the Koga-Miyata brand (and hence are not allowed to call themselves 'Selected Koga Dealer' or 'Koga Full Range Dealer').

These dealers entice customers with especially attractive prices. But the true cost is only apparent after buying in this way, namely if you require service or need to make a claim under warranty, because it becomes very complicated in such a case to send the bike back to the relevant supplier for that purpose.

But these matters are handled proper if on the other hand you decide to buy from a Selected Koga Dealer or Full Range Dealer in your neighbourhood. We therefore advise you to always buy your Koga-Miyata bike from an official Koga Selected and/or Full Range Dealer: only then can you guarantee getting quick and expert service and proper maintenance.

## ATTENTION SI VOUS ACHETEZ VIA INTERNET

Certains Koga-Miyata sont proposés via internet, mais il s'agit de distributeurs qui ne sont pas enregistrés par Koga comme distributeurs officiels (et qui n'ont pas le droit d'arborer les logos 'Selected Koga Dealer' ou 'Koga Full Range Dealer').

Ces distributeurs offrent parfois des vélos à des prix particulièrement alléchants. Mais le vrai prix n'apparaît qu'après vente, notamment si votre vélo a besoin d'un entretien ou s'il faut remplacer une pièce sous garantie. Il s'avère souvent très compliqué de renvoyer le vélo au fournisseur concerné.

Vous n'aurez en revanche aucun souci de ce genre si vous décidez d'acheter votre vélo chez un distributeur agréé 'Koga Selected' ou 'Full Range Dealer' dans votre quartier. Nous vous conseillons donc de toujours acheter un Koga-Miyata chez un distributeur officiel 'Koga Selected' ou 'Full Range Dealer': c'est la seule garantie d'obtenir un service rapide et des entretiens fournis par un expert compétent.

Perfection into Detail

### **Prominence - nieuwe ontwikkelingen**

Koga's nauwe band met de veeleisende topsport is rechtstreeks herkenbaar in het niveau van de nieuwe toerfietscollectie. Innovatieve, functionele techniek, waarbij gemak, duurzaamheid, gewicht en design voorop staan. Topmodel Prominence is hiervan het toonbeeld: ondanks het slanke frameontwerp is er ingebouwde lichtgewicht (1,2 kg) voorvering. Dankzij de lagering is de werking soepel en direct, waardoor schouders en polsen worden ontzien. En onopvallend functioneel is de nieuwe drager, optisch een eenheid met het framedesign maar karakteristieke lijnen en bijpassende jasbeschermers.

### **Prominence - new developments**

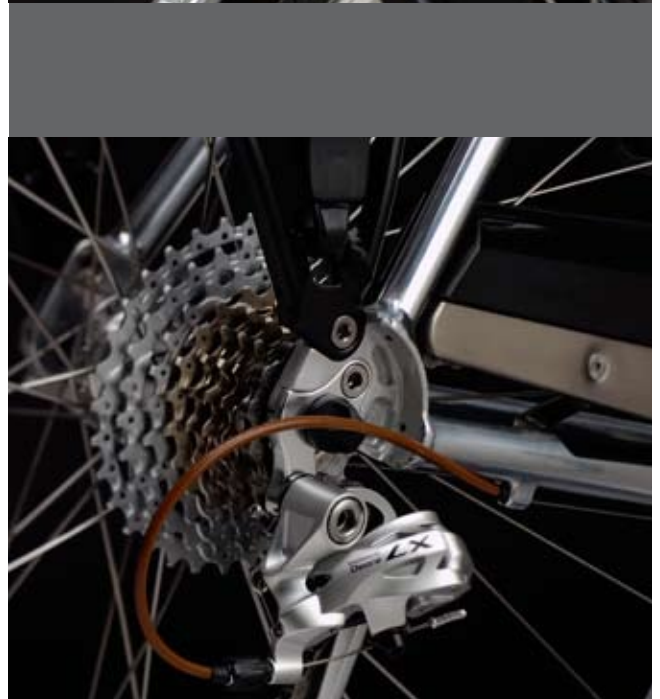

Koga's close connections with top-level touring cyclists are instantly evident when you examine the new touring bike collection. Innovative, functional technology which puts comfort, durability, weight and design as top priorities. The flagship model, the Prominence, is the poster child for this approach: despite the slim frame design a lightweight (1.2 kg) front suspension system is built in. Its smooth bearings provide a plush and direct response, de-stressing shoulders and wrists. The new carrier rack is also appealingly functional, forming a single visual unit with the frame design, offering characteristic style and with a matching clothing protector

### **Prominence mit neuen Entwicklungen**

Kogas enge Verbindung zum Tourenfahren auf Topniveau erkennt man sofort am Niveau der neuen Tourenrad-Kollektion. Innovative, funktionale Technik, bei der Komfort, Ausdauer, Gewicht und Design an vorderster Stelle stehen. Das Topmodell Prominence ist dafür das Vorzeigemodell: trotz des schlanken Rahmendesigns wurde eine leichte (1,2 kg) Vorderradfederung (Koga Feather) eingebaut. Dank der Lagerung funktioniert sie sanft und direkt, wodurch Schultern und Handgelenke geschont werden. Auffallend funktional ist der neue Gepäckträger, optisch eine Einheit mit dem Rahmendesign, doch mit charakteristischen Linien und passendem Kleidungsschutz.

### **Le Prominence évolue grâce à des nouveaux développements**

Le lien étroit entre Koga et le sport de haut niveau a marqué les exigences auxquelles répond la nouvelle collection de vélos de randonnées. Des techniques innovantes et fonctionnelles qui mettent l'accent sur le confort, la durabilité, le poids et le design. Le modèle phare Prominence en est l'illustration : une suspension légère (1,2 kg) est intégrée dans un cadre au design effilé. Souple et directe dans son fonctionnement, elle soulage les épaules et les poignets. Fonctionnel et discret, le nouveau porte-bagage se fond dans les lignes du cadre et forme un ensemble harmonieux avec le garde-boue arrière.

### Prominence - nieuwe ontwikkelingen

De fietskoplamp "Rayo" is het resultaat van de samenwerking tussen Koga en Busch&Müller. De doelstelling was een koplamp te ontwikkelen die optisch onopvallend is en met stuurtas of fietsmand bruikbaar. De oplossing werd gevonden in de vormgeving.

Door middel van een natuurlijk sandwichconstructie wordt de lamp aan het voorspatbord bevestigd. De nieuwe LED-technologie (32 Lux) maakte het door zijn hoge lichtopbrengst mogelijk de lamp klein te houden en er desondanks een reflector in te integreren.

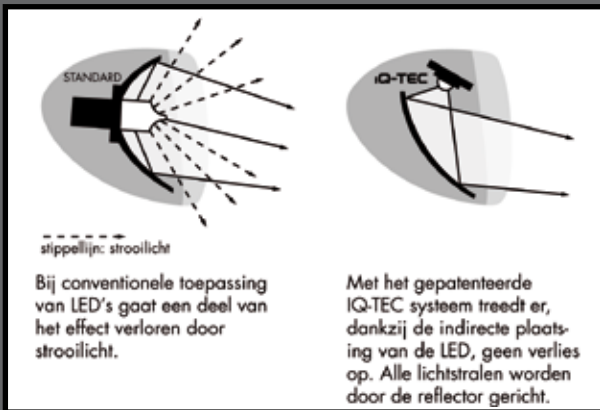

De door een naafdynamo gevoede "Rayo" is voorzien van een senso-stand, maar kan ook door middel van makkelijk te bereiken schakelaar ingeschakeld worden. De nieuwe "Rayo Senso+" beschikt tevens over een standlichtfunctie. De lichtbundel kan nauwkeurig worden gericht door middel van een getrappt instelmechaniek.

### Prominence - new developments

The "Rayo" front light is the result of a collaboration between Koga and Busch&Müller. The objective was to develop a front light which would not immediately be visually obvious, and which would also remain functional when using a basket or handlebar bag. The final design represents the solution to all of these requirements.

The LED headlight is attached to the mudguard using an organic sandwich-type structure. New, more powerful LED technology (32 Lux) permits a compact headlight design which nevertheless incorporates a reflector.

The hub dynamo driven "Rayo" is equipped with a sensor system, but it can also be turned on manually via a very easily accessible switch. The new Rayo Senso+ has an additional standlight function. The beam angle can be precisely set using the click-action adjuster, and it then stays reliably in place.

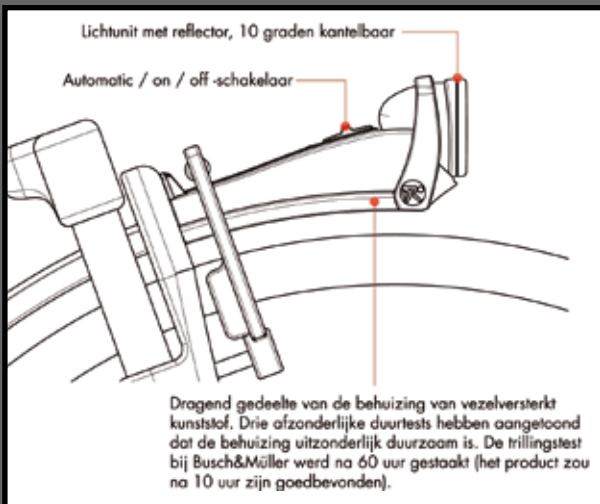

### Prominence mit neuen Entwicklungen

Der Scheinwerfer "Rayo" ist das Ergebnis der Zusammenarbeit von Koga und Busch&Müller. Die Zielsetzung war die Entwicklung eines Scheinwerfers, der optisch nicht sofort ins Auge fällt und auch mit Lenkertasche oder Korb noch nutzbar ist. Die Gestaltung ist die Antwort auf diese Anforderung.

Mittels einer natürlichen Sandwich-Konstruktion wird die LED-Lampe auf dem Schutzblech befestigt. Eine neue leistungsstarke LED-Technologie (32 Lux) ermöglicht es, den Scheinwerfer klein zu gestalten und trotzdem noch einen Reflektor zu integrieren.

Der Nabendynamo betriebene „Rayo“ ist mit einem Senso-Stand ausgerüstet, kann aber auch mit einem sehr einfach erreichbarem Schalter in Betrieb genommen werden. Der neue Rayo Senso+ hat außerdem eine Standlichtfunktion. Durch eine einrastende Einstellung kann die Position des Lichtkegels genau bestimmt werden und bleibt auch erhalten.

### Le Prominence évolue grâce à des nouveaux développements

Le phare „Rayo“ est le fruit d'une étroite collaboration entre Koga et Busch&Müller. L'objectif était de développer un phare avant plutôt discret mais pleinement fonctionnel même si un sac ou un panier sont fixés à l'avant du guidon. Son design répond à ces exigences.

Au moyen d'une construction naturelle en « sandwich » des matériaux synthétiques, la lampe LED se fixe sur le garde-boue. Une nouvelle technologie LED (32 Lux) plus puissante a permis de réduire la taille du phare tout en intégrant quelques réflecteurs dans le boîtier.

Alimenté par une dynamo en moyeu, le « Rayo » est équipé d'un 'Senso-Stand', mais peut également être allumé via un bouton facile d'accès. Le nouveau Rayo Senso+ dispose en plus d'une fonction 'feux de stationnement'. Un réglage graduel avec crans d'arrêt permet de régler l'orientation du faisceau lumineux de manière précise et durable.

Perfection into Detail

**KOGA** R A Y O  
POWERED BY BUSCH & MÜLLER

# In the Spotlight

**NL** - Alle frames zijn voorzien van een zeer hoogwaardige laklaag (3 verschillende lagen), de Crystal Clear Protection Coating (CCPC). Voor bescherming en zeer heldere kleurweergave.

**EN** - All frames are finished with a very high quality triple-layer paint which we call Crystal Clear Protection Coating (CCPC). For Protection and vivid colour reproduction.

**DE** - Alle Rahmen werden mit einer sehr hochwertigen Lackierung versehen (3 verschiedenen Schichten) das sogenannte Crystal Clear Protection Coating (CCPC). Zum Schutz und für klare Farbwiedergabe.

**FR** - Tous les cadres sont couverts d'une couche de vernis de grande qualité appliquée en trois couches distinctes dans un procédé particulier, appelé le "Crystal Clear Protection Coating" (CCPC).

**NL** - Waar mogelijk, zijn de lasnaden op een Koga frame perfect geëgaliseerd (super smooth welding) zodat er een volkomen glad oppervlak ontstaat. Dit vermindert tevens de kans op roestvorming rondom de lasnaden.

**EN** - Wherever possible the weld beads on a Koga frame are levelled to perfection (super smooth welding), so that the result is a completely smooth surface. This also minimises the risk of rusting around the weld bead.

**DE** - Wo möglich, sind die Schweißnähte an einem Koga-Rahmen perfekt egalisiert (super smooth welding), sodass eine vollkommen glatte Oberfläche entsteht. Das vermindert zugleich das Risiko der Rostbildung.

**FR** - La majorité des soudures est parfaitement égalisée (super smooth welding) pour créer une surface tout à fait lisse. Cela diminue également le risque de voir apparaître des taches de rouille autour des soudures.

**NL** - De keuze voor de banden is altijd afhankelijk van het soort fiets. Criteria zijn rolweerstand, lange levensduur en voorkomen van lekkage.

**EN** - A choice of tires always depends on the type of bike. Criteria are: drag, durability and resistance to tire leakage

**DE** - Die Wahl der Reifen ist immer abhängig vom Verwendungszweck. Kriterien sind Rollwiderstand, lange Lebensdauer und Pannenschutz.

**FR** - Le choix des pneus dépend toujours du type de vélo. Les critères sont la résistance au roulage, la durée de vie et la prévention de crevaisons.

**NL** - De leren handvatten zijn gemaakt van de allerbeste leersoorten en zorgen voor een aangenaam comfortabele grip tijdens het fietsen.

**EN** - The leather grips are made from the highest grades of leather and ensure a pleasant and comfortable grip as you ride.

**DE** - Die Ledergriffe werden aus den besten Ledersorten gefertigt und sorgen für einen angenehmen und bequemen Griff beim Radfahren.

**FR** - Les poignées sont fabriqués à partir de meilleures sortes de cuir et assurent une prise en main très agréable et confortable.

**NL** - Aluminium frames van Koga hebben een 3-voudige wanddikte (triple butted). Hierdoor kunnen de frames optimaal gespecificeerd worden qua gewicht en stijfheid.

**EN** - Koga's aluminium frames use three different wall thicknesses (triple butted) so that the frames can be optimized for low weight and high stiffness.

**DE** - Kogas Aluminium-Rahmen haben eine dreifach variierende Wandstärke (triple butted): so können die Rahmen optimal hinsichtlich Gewicht und Steifigkeit abgestimmt werden.

**FR** - Les cadres en aluminium de Koga sont "triple butted", les tubes présentent une épaisseur variable selon les endroits ce qui permet d'ajuster parfaitement le poids et la rigidité du cadre.

**NL** - Voor de meest cruciale draaiende onderdelen wordt gebruik gemaakt van zeer lichtlopende hoogwaardige industriële lagering. De levensduur is significant hoger dan bij normale lagering.

**EN** - For the cycle's critical moving parts, very easy-rolling industrial sealed bearings are fitted. You will enjoy a considerably longer life than normal bearings.

**DE** - Bei den entscheidenden sich drehenden Teilen werden sehr leichtgängige hochwertige Industrielager verwendet. Die Lebensdauer ist dadurch bedeutend länger als bei normalen Lagern.

**FR** - Les plus importantes pièces tournantes sont pourvues de roulements à billes industriels. Une coque spéciale les protège et leur assure une longévité nettement supérieure à celle de roulements à billes habituels.

**NL** - De meeste Koga's zijn uitgerust met het unieke Brake Power Control systeem (BPC). Het BPC systeem zorgt voor een meer geleidelijke overbrenging van remkracht op de fiets waardoor de kans op remblokkering significant verminderd wordt.

**EN** - Most Kogas are equipped with the Brake Power Control system (BPC). The BPC system ensures even transmission of braking force to the bicycle and minimises the risk of locking a wheel.

**DE** - Die meisten Kogas verfügen über ein Brake Power Control-System (BPC). Das BPC-System sorgt für eine gleichmäßigere Übertragung der Bremskraft auf das Fahrrad und minimiert so das Risiko, dass die Bremsen blockieren.

**FR** - La plupart des vélos Koga disposent d'un système de freinage "Brake Power Control" (BPC). Le système BPC assure une transmission plus régulière de la force de freinage sur le vélo et réduit ainsi le risque de blocage des freins.

**NL** - LED verlichting heeft een significant helderder lichtopbrengst, dus betere zichtbaarheid en dus veiliger.

**EN** - LED lighting technology offers significantly greater illumination - making you easier to see for extra safety.

**DE** - LED-Beleuchtung von wesentlich öherer Leuchtkraft - ein Sicherheitsfaktor, da man besser gesehen wird.

**FR** - Le LED éclairage offre une luminosité nettement supérieure - un facteur de sécurité pour le cycliste qui sera d'autant plus visible.

**NL** - Voor extra comfort zijn veel fietsen uitgerust met verende en dempende onderdelen.

**En** - Many bikes are equipped with suspension, for your comfort.

**DE** - Zusätzlichen Komfort bietet bei vielen Modellen die Ausstattung mit federnden oder dämpfenden Teilen.

**FR** - Des nombreux modèles offrent un confort supplémentaire grâce aux pièces suspendues ou équipées d'amortisseur.

**NL** - Bij dubbel gebuste velgen zorgen de bussen voor een krachtenverdeling over een zo groot mogelijk oppervlak, hierdoor ontstaat een zeer sterk en duurzaam wiel, waardoor de kans op slagen in het wiel aanzienlijk minder groot wordt.

**EN** - In a double-eyeletted rim the spokes sit in special sleeves (eyelets). These eyelets ensure that the forces applied by the spoke are distributed across the largest possible area (both walls of the rim). This gives the wheel enormous strength and long life. The risk of a wobbly rim is minimal.

**DE** - Bei doppelt geösten Felgen sorgen die Ösen dafür, dass die einwirkenden Kräfte über eine möglichst große Oberfläche verteilt werden. Das Rad erhält dadurch mehr Stabilität und ist langlebiger. Das Risiko einer 'Acht' im Rad ist geringer.

**FR** - Sur les jantes à double oeillet, les rayons sont enserrés dans des oeillets spéciaux qui répartissent les forces exercées sur une surface maximale (des deux parois de la jante). La roue y gagne en stabilité et longévité. Le risque de voir une roue tordue 'en huit' est très minime.
